EUROPE

 **Community
Jameel**
A TRADITION SINCE 1945

This colloquium serves as the culmination of the first year of J-PAL co-founder and director Esther Duflo's chair position in "Poverty and Public Policy" at the Collège de France, which she has used to explore the progression of the global effort to develop and mainstream evidence-based policy. This event will seek to chart the path forward for policymaking informed by rigorous research on a global level and continue J-PAL's work of advocating for innovative, cost-effective solutions to our most pressing challenges.

The colloquium will gather a wide range of stakeholders including: researchers, policy-makers, social entrepreneurs, donors and the general public. Ultimately, the event's aim is to explore the role that evidence use can play in shaping social policy and development programmes in different contexts; to disseminate best practices in evidence-based policy making at a global level; to celebrate the progress made in the fight against poverty through rigorous research; and to take stock of the work yet to be done to effectively respond to global challenges, in particular climate change.

Ce colloque marque le point culminant de la première année d'Esther Duflo, cofondatrice et directrice de J-PAL, comme titulaire de la Chaire "Pauvreté et Politiques publiques" au Collège de France. Cette année lui a permis de faire le bilan des progrès accomplis pour développer et promouvoir des politiques fondées sur les preuves. Ce colloque est l'occasion d'en présenter les perspectives futures au niveau mondial ; il s'inscrit dans le travail de plaidoyer que mène J-PAL pour des réponses innovantes et rentables à nos défis les plus pressants.

Ce colloque de deux jours a pour thème la contribution de l'innovation et de la recherche rigoureuse à la lutte contre la pauvreté. L'évènement rassemble des chercheurs, des décideurs politiques, des entrepreneurs sociaux, des bailleurs de fonds, ainsi qu'un large public. Son objectif est d'explorer le rôle que peut jouer l'utilisation des résultats probants dans l'élaboration des politiques sociales et des programmes de développement dans différents contextes ; de diffuser les meilleures pratiques en matière de politiques fondées sur les preuves au niveau mondial ; de célébrer les progrès accomplis dans la lutte contre la pauvreté grâce à des recherches rigoureuses ; et de faire le point sur les efforts qu'il reste à fournir pour répondre aux défis globaux, en particulier celui du changement climatique.

THURSDAY JUNE 22nd MORNING:

*This morning will be conducted in French,
with simultaneous translation into English.*

8h45 Registration

Opening session

9h15 Event opening

Introduction, welcome, and address by **Esther Duflo** (Professor, Collège de France, MIT; J-PAL Director)

Address by **Bruno Le Maire** (French Minister of Economy, Finance, and Industrial and Digital Sovereignty)

Address by **Abdourahmane Cissé** (Minister, Secretary-General of the Presidency, Republic of Côte d'Ivoire)

Morning session: Building a hub for experimental research and evidence-based policy-making in France
